Un' evidente prova della naturalità dei nostri mobili è riscontrabile nelle minuscole crepe e fessure che si aprono tra le fibre del legno, effetto da considerarsi totalmente naturale e che non rappresenta un difetto di produzione ma al contrario un pregiò estetico. Anche le finiture e le verniciature rispettano elevati standard ambientali.

Clear evidence of the naturalness of our furniture can be found in the tiny cracks and crevices that open between the wood fibers, an effect to be considered totally natural and which does not represent a manufacturing defect but on the contrary an aesthetic value. Even the finishes and paints meet high environmental standards.

Prima di arrivare alla materia e alla sua lavorazione, Tarocco Vaccari è un'idea, un concept. Un pensiero alla base del nostro lavoro e che si può sintetizzare in una parola: armonia. Lavoriamo alla costante ricerca del perfetto connubio tra l'uomo e lo spazio in cui vive: estetica, funzionalità, materia prima sono gli elementi che concorrono a creare questo equilibrio. Creare mobili valorizzando la preziosità innata della materia, come uno scultore che vede già la statua nel blocco di marmo di fronte a sé. Trarre il meglio dal legno. Questa è la nostra arte.

Before getting to the material and its processing, Tarocco Vaccari is an idea, a concept. A thought at the basis of our work and which can be summarized in one word: harmony. We work constantly in search of the perfect union between man and the space in which he lives: aesthetics, functionality, raw materials are the elements that combine to create this balance. Creating furniture enhancing the innate preciousness of the material, like a sculptor who already sees the statue in the block of marble in front of him. Making the most of wood. This is our art.
